

## Department of Energy Academies Creating Teacher Scientists (DOE ACTS)

### *at the Lawrence Livermore National Laboratory*

DOE ACTS at LLNL is a professional development program for middle and high school science teachers. Instruction is aligned with National Standards for Science Education. Details about the program are available at the LLNL web site <http://education.llnl.gov>.

To participate in the DOE ACTS program at LLNL, you must be:

- Currently teaching in a high school or middle school
- Willing to make a three-year commitment to participate from 2007-2009
- Be a U.S. citizen

**Where:** Lawrence Livermore National Laboratory (LLNL), Livermore, California. (Fifty miles east of San Francisco)

**When:** Begins June 25, 2007

#### **Compensation:**

- \$1500 travel and housing costs
- \$800 per week at LLNL
- \$4000 mini-grants for equipment and conference travel

#### **Application:** DOE Application Link:

<https://applicationlink.labworks.org/applicationlink/default.htm>

- Opens October 2, 2006 closes February 1, 2007
- Labs begin reviewing applications on February 1
- Offers to the 10 selected participants prior to March 31

#### **Teacher development:**

- Experience in a premier research laboratory
- Develop teacher science and technology skills
- Gain curriculum development experience
- Develop research skills
- Access to scientists at LLNL
